Re: Greenwich Insurance Company ("GIC")  
Dentists Professional Liability  
Dentists Professional Liability Rate/Rule Filing #09GD-XL-EO03-MU-IL-R

To whom it may concern:

I have reviewed the above captioned filing and believe the filed rates are consistent with actuarial principles. They are based on the expected future value of all risk transfer costs, including claims, claims settlement expenses, operating expenses and cost of capital. Because this is a new program, there is no data of our own to review; however, I have compared our rates to competitors and, based on that analysis, find them to be neither excessive, nor inadequate, nor unfairly discriminatory.

If you have any questions or require anything further, please feel free to contact me.

Ms. Neuman,

In response to the corresponding form objection on this filing. We have revised our rating plan. Attaching is a revised rating page that adds sections "20a" and "20b" for the Basic ERP and Supplemental ERP, respectively. We show the premium for the Basic simply as "included" and the charge for the Supplemental as "200% of the expiring annual premises premium".

Please let us know if you need any additional information.

Ms. Pollard,

I am in receipt of your January 22, 2010 response. Please address the following:

1. Please advise the date and filing number used to submit the countrywide pages.
2. In regard to the required quarterly premium payment plan, this information needs to be added to the rate/rule manual pages. I am unsure what the "form" is that you have referred to.
3. In regard to the risk management education discount, we require a written statement certifying that the insurance company does not unfairly discriminate in offering or administering this program. This could be compared to an insured who receives a discount for installing an alarm that is never activated.
4. An Extended Reporting Period is only required when the policy is cancelled/terminated/nonrenewed. If an insured simply increases a deductible, this is not considered to be a "termination of coverage" requiring the company to offer an extended reporting period. Please explain the definition of "termination of coverage".
5. Please explain "NSDP sponsored program".

I request receipt of your response by January 28, 2010.

Re: Greenwich Insurance Company  
Dentists Professional Liability  
Dentists Professional Liability Rate/Rule Filing #09GD-XL-EO03-MU-IL-R

The following is a response the correspondence dated January 26, 2010 in regards to the above mentioned filing.

1. Attached is a copy of the rating rules with further modifications in accordance with other objection responses. This copy should replace, in its entirety, any previously submitted versions. Note: the file is renamed, removing "countrywide" from the title, as these rules are not, in fact, countrywide any longer, they are specific to Illinois. I apologize if this has caused confusion.
2. The language for the quarterly installment plan has been added to the rules pages and is also referenced in the rating page.
3. Your point is well taken that an insured could complete a risk management course yet not implement any meaningful procedures or controls to effect an improvement in their risk profile. However, we do find it important to encourage insureds to educate themselves in assessing risk and controlling losses. At this time, we request to be allowed to leave this component in our rating plan but with a filed factor of 1.00 while we continue to contemplate how this characteristic could be verified/assessed more accurately.
4. Please see our revised rating rules.
5. The "NSDP sponsored program" referenced in part 15 of the rules pages refers to an insurance program sponsored by the National Society of Dental Practitioners.

Ms. Pollard,

I am in receipt of your response sent on January 15, 2010. Please address the following issues:

1. 215 ILCS 5/155.18 states it shall be certified in this filing by an officer of the company and a qualified actuary that the company's rates are based on sound actuarial principles and are not inconsistent with the company's experience. This information is required in every rate/rule filing for medical malpractice. Your response only included a certification from an actuary – you still need to provide a certification from a company officer.
2. Please provide the countrywide pages that you referred to in your response to two different issues. Were these countrywide pages previously submitted for filing in Illinois?
3. My previous questions 6 and 7 received no response. Your response is required at this time.
4. The manual should reflect that the ERP factor is applicable to the expiring annual premium.
5. The risk management education discount is not associated with any loss control procedures or safety training/inspections. Please explain what it would consist of.

I request receipt of your response by January 22, 2010.

The following is a response the correspondence dated January 19, 2010 in regards to the above mentioned filing.

- 1) Attached, please find our signed company certification.
- 2) The countrywide rules were originally submitted. However, due to my response to #4 below, I am attached a revised version of the countrywide rules, which should entirely replace any previous copies.
- 3) From the previous objection
  6. We are awaiting final sign off from our Legal Department and will forward as soon as the form has been received.
  7. The charge shown for this provision is for occurrence coverage. Section 29 of the countrywide rules now contains a clause to emphasize this.
- 4) I have revised clause 13c in the attached revised C/W rules.
- 5) The risk management education discount recognizes that an insured who is educated in the concept of loss control/risk management, with or without particular procedures in place, is – to a small degree, reflected in the relatively minor 10% credit – going to control liability and maintain a safer environment than a exactly comparable risk without such education.

The following is a response the correspondence dated December 7, 2009 in regards to the above mentioned filing.

- 1) Data for this program will be reported to ISO in full statistical detail on a quarterly basis under the CSP full plan.
- 2) See attachment
- 3) The definitions of each class were provided in the countrywide rules section, which will be used in conjunction with the Illinois rating.
- 4) Rule #4 from our countrywide rules addresses both multi-territory dentists and locum tenens positions.
- 5) Yes, the percentages shown denote the credit and/or debit available, but not all may be applicable or warranted. For example, a credit of 10% and a debit of 25% denote potential modification in the range of -10% up to +25%.
- 6) ---
- 7) ---
- 8) The ERP factor is applicable to the expiring annual premium. This would be inclusive of the premises exposure, and our highest ERP factor is 1.80.
- 9) Appointment status describes the extent to which a dentist is appointed as a faculty member at an accredited dental school
- 10) Risk management education discounts reflects the completion of approved risk management courses, while schedule rating contemplates certain operational procedure and/or controls, safety programs and other characteristics of the risk that are expected to impact loss experience.

Ms. Pollard,

I am in receipt of the above referenced filing submitted with your letter dated November 4, 2009. The following information/documentation is required for further review of this filing:

1. Please indicate if your company has a plan for the gathering of statistics or the reporting of statistics to statistical agencies? If yes, what stat agency is being used?
2. 215 ILCS 5/155.18 states it shall be certified in this filing by an officer of the company and a qualified actuary that the company's rates are based on sound actuarial principles and are not inconsistent with the company's experience. This information is required in every rate/rule filing for medical malpractice.
3. Please define the classes 1 through 5.
4. Please indicate if Greenwich has any regulations for dentists operating in multiple territories and locum tenans.
5. Under the scheduled rating section, is "10%" actually a range of "0 to 10%"?
6. Pursuant to 50 Ill. Adm. Code 929, all companies writing medical liability insurance shall file with the Secretary or Director a plan to offer each medical liability insured the option to make premium payments, in at least quarterly installments. For purposes of this requirement, insurers may, but are not required to, offer such premium

1/19/2010

installment plans to insureds whose annual premiums are less than \$500, or for premium for any extension of a reporting period. Quarterly installment premium payment plans subject to this Section shall be included in the initial offer of the policy, or in the first policy renewal occurring after January 1, 2006. Thereafter, the insurer may, but need not re-offer such payment plan, but if an insured requests such payment plan at a later date, the insurer must make it available. All quarterly installment premium payment plan provisions shall be contained in the filed rate and/or rule manual in a section entitled, "Quarterly Installment Option" or a substantially similar title. If the company uses a substantially similar title, the Rule Submission Letter must indicate the name of the section that complies with this requirement. All quarterly installment premium payment plans shall include the minimum standards listed below. Insurers may provide for quarterly installment premium payment plans that differ from these minimum standards, as long as such plans have terms that are at least as or more favorable than those listed below.

- i) An initial payment of no more than 40% of the estimated total premium due at policy inception;
- ii) The remaining premium spread equally among the second, third, and fourth installments, with the maximum for such installments set at 30% of the estimated total premium, and due 3, 6, and 9 months from policy inception, respectively;
- iii) No interest charges;
- iv) Installment charges or fees of no more than 1% of the total premium or \$25.00, whichever is less;
- v) A provision stating that additional premium resulting from changes to the policy shall be spread equally over the remaining installments, if any. If there are no remaining installments, additional premium resulting from changes to a policy may be billed immediately as a separate transaction.

7. Is the premises liability premium included in the manual written on a claims-made basis or an occurrence basis? If written on a claims-made basis, as the policy would provide both professional liability and general liability, the policy must provide other requirements. The insured must be allowed 60 days after the end of the policy period to purchase the e.r.p. The insured must be offered (a) a free 5 year tail and (b) an unlimited tail with limits reinstated (100% of aggregate expiring limits for the duration) and premium capped (e.r.p. is limited to a 200% cap of the annual premium of the expiring policy). After the e.r.p. is paid, it may not be cancelled for any reason. This information must be disclosed in the manual.

8. The rate/rule manual must indicate that the extended reporting period (tail coverage) premium is priced as a factor of one of the following: (1) the last twelve months premium; (2) the premium in effect at policy issuance; or (3) the expiring annual premium. Additionally, it should list the factor(s) to be used to figure the premium, which of the three premiums the factor will be applied to, and any credits, discounts, etc. that will be added or removed when determining the final premium. The company must inform the insured of the extended reporting period premium at the time the last policy is purchased. The company may not wait until the insured requests purchase of the extended reporting period coverage to tell the insured what the premium will be or how the premium will be calculated. Additionally, the manual should reference if the tail is for 12 months, unlimited, etc.

9. Please explain 9. A. Appointment Status.

10. Please explain how 11. Risk Management Education Factor varies from the scheduled rating plan factor.

Your prompt attention is appreciated.

**28.     DISABILITY OR LEAVE OF ABSENCE**

In contemplation of a reduction in exposure, and for a period of at least 45 days and no greater than 180 days, insured dentists shall be eligible for a "disability and/or leave of absence" premium reduction for the disability or absence period. "Disability or leave of absence" is defined as an injury, disease, medical condition or continuing education sabbatical that prevents an insured dentist from engaging in the practice of dentistry, other than in an emergency situation. This will apply retroactively to the first day of disability or leave of absence. See rate sheet.

**29.     PREMISE LIABILITY**

Premise Liability coverage, provided on an occurrence basis, is an optional coverage, and can be added for an additional premium charge. See rate sheet.

**30.     QUARTERLY INSTALLMENT OPTION**

The insured may pay the required annual premium in quarterly installments, with no accrued interest charged, in accordance with the following schedule:

- i.     An initial payment of 40% of the estimated total premium is due at inception
- ii.    Additional payments, each equal to 20% of the estimated total premium, will be due at 3, 6 and 9 months from policy inception.
- iii.   Each installment will incur a fee of 1% of the estimated total premium, or \$25.00, whichever is less.
- iv.    If a change is made to the policy at any time during the term, the change in premium will be spread evenly over the number of remaining installments. If there are no remaining installments, the premium charge will be billed immediately, or the return premium issued immediately, subject to part 8 of these rules.
